

MEDIWRAP® SINGLE USE BARRIER BEDDING

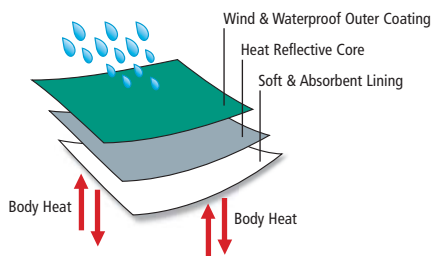

There are many scenarios when conventional bedding is inappropriate. When faced with storing traditional bulky bedding or where the provision of a laundry service is not practical or unavailable for a time; when you need to ensure the mattress/pillow underneath remains dry and free from contamination or you need to provide clean and warm bedding in a remote location, Mediwrap Single Use Barrier Bedding is a practical, high performance and cost effective solution.

- Soft and comfortable next to skin.
- Can absorb 10 times it's own weight in bodily fluids.
- Protective laminate underside ensures no fluid seeps onto mattress or pillow.
- Individually packed and ready to use when you need it.
- Reduces the risk of cross infection.
- Ensures clean up time is minimised.
- Compact, lightweight and easy to store.
- Cost effective.

Barrier Sheets, Barrier Pillowcases and Barrier Bedding Packs are all available as well as being part of the Mediwrap Disposable Ambulance Pack. It is ideal for use on stretcher trolleys, emergency wards, field hospitals, first aid rooms and anywhere clean emergency bedding is required.
